News Release

Houston Physicians' Hospital launches new website

WEBSTER, TX (June 14, 2011) – This week Houston Physicians' Hospital will unveil its new website, www.houstonphysicianshospital.com, to the public. The revamped site features a comprehensive listing of the hospital's specialty offerings, helpful pre-surgery patient information, and updated graphics and photos. The website is the first major introduction of the hospital's new brand, which was developed to highlight the hospital's personalized approach to patient care.

"We are excited to debut this new website," said Dr. Gregory Bonnen, MD, neurosurgeon and chairman of the board of managers for Houston Physicians' Hospital. "We believe patients and visitors to our website will find an enhanced patient experience by being able to learn more about Houston Physicians' before even setting foot in the door of the hospital."

Houston Physicians' Hospital is a physician-owned hospital located in Webster, Texas. Physician ownership ensures that patients have the right to access and obtain clear and understandable information regarding the cost of health care. This also allows patients to work with the physician that best suits their needs.

Houston Physicians' Hospital is a joint venture partnership between area physicians and Nueterra Healthcare, a health care management company based in Leawood, Kansas. The 49,000-sq-ft facility offers a 15-bed post-anesthesia care unit, nine operating rooms, six operating suites, two procedure rooms, and 21 inpatient rooms. Houston Physicians' Hospital performs procedures for ear, nose, and throat, general surgery, gynecological surgery, hand surgery, neurosurgery, orthopedic surgery, pain medicine, plastic surgery, podiatric surgery, and urology.

More information on Houston Physicians' Hospital is available at www.houstonphysicianshospital.com.
